3. The host organisation and the sending organisations

The host association

The host is Lunds Ungdoms- och Hemgård, Sweden

Address: Kiliansgatan 11, 223 50 Lund, Sverige

Website: <http://www.hemgarden.org/>

Host and contact person:

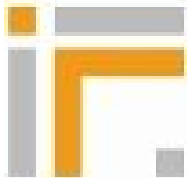

Staffan Lindqvist, Secretary General, International Settlement Federation

The association Lunds Ungdoms- och Hemgård is the official name of what is colloquially called Hemgården. Hemgården is, in contrast to the municipal leisure actors, an ideal association and was formed as early as 1942. The initiators were a group of social democratic ladies who noticed the need for a gathering place of a positive nature for mainly young people. During the first 18 years, Hemgården moved to four different addresses in central Lund before moving into the large white half-timbered house at Kiliansgatan 11 in 1960, where we are still located.

The mission is to work for our community and to bridge obstacles in the form of e.g. age, gender, ethnic or subcultural affiliation between people and groups of people. We believe that perhaps our most important task is precisely this, to facilitate meetings between people and we try to do this by providing a convivial environment characterized by tolerance, openness, and respect.

Hemgården is a proud member of the [Swedish Settlementförbundet](#), which is a gathering idea actor for Sweden's recreational and cultural houses.

The sending associations

The sending organisation is [Interfolk, Institute for Civil Society](#).

Interfolk, Institute for Civil Society is a Danish non-profit and non-governmental association and private research institute, founded in 2008. Interfolk is a member of the Baltic Sea NGO Network; the International Platform for Civic Participation (IPCP); the European Network for Active Participation in Cultural Activities (AMATEO); and the FIRST Network – supporting first-time international project leaders.

The mission is to strengthen lifelong learning activities characterized by personal autonomy, active citizenship, social inclusion and cultural cohesion in liberal adult education and participatory culture.

The activities include research, development projects, courses, seminars, and other lifelong learning and cultural activities – in the context of the Danish, Nordic, and European civil societies.

Interfolk has been involved as coordinator or partner in more than 30 international projects related to informal and non-formal lifelong learning in the areas of liberal adult education, participatory culture and heritage, and many have been close to the subject of the Micropolis Project, like "Bridging social capital by participatory culture", "Culture Guides for social marginalised", "Co-creative cooperation in the field of culture and heritage", "Voluntary culture as leverage of cultural activities in sparsely populated areas", "Art-based learning and active ageing", "Develop online tools to assess the added community values of participatory culture", and many more.

Desuden bør du medbringe EU's blå sygesikringsbevis, som vil sikre at du ved eventuel sygdom får umiddelbar adgang til værtslandets sundhedsvæsen på linje med dets egne borgere.

Since this is a short-term study trip, where you participate without salary and an employment contract with the study trip organizer, it is the participants' own private insurance that must cover their possible damages and losses.
